- Rolls on 8" diameter non-marking wheels

- 5" non-marking foot pads lock unit into position for play

### WARNING!

Failure to install customer supplied ballast according to instructions could result in serious injury.

The Hurricane competition style portable basketball goal is designed for use in a fieldhouse, gymnasium or anywhere upper end, aggressive basketball is played.

The Hurricane's massive extension arm features an upper and lower boom support. The extension distance from base to backboard is 96" meeting all NCAA and National High School Federation requirements. The unit comes equipped with First Team's top of the line FT235 Unbreakable 42"x72" competition tempered glass basketball backboard, FT196 Full-Tilt 180 degree breakaway basketball goal and FT72C TuffGuard bolt-on backboard padding. These are the same components used in high schools and colleges throughout the country.

The Hurricane portable basketball hoop is also height adjustable. Rim height adjustments from 10' down to 6' are made easily with its low maintenance extension spring design. To adjust the unit, simply pull the pin located on the adjustment rod, raise or lower the unit as needed and replace the pin. One person can easily roll the unit into place and set up easily.

Heavy foam padding, available in an array of colors, protects players on the front, sides and back of the base unit. A boom extension pad is also included. The unit is extremely stable as well as durable and will not tip over when players hang on the rim. For additional support, rear hold downs are included as required by the NCAA and NHSF for competition portable goals. Choose the Hurricane Triumph-FL package for installations on floating floors or Hurricane Triumph-ST for all other flooring surfaces.

Floor load on the wheels is: 350 psi.

All Hurricane portable basketball goals are covered by First Team's unmatched Lifetime Superior Warranty!
